

PROFESSIONAL SUMMARY

Electrical Engineer with hands-on experience in power transmission and distribution through internships at **Lahore Electric Supply Company** and **National Transmission and Dispatch Company**. Currently working as a Trainee Design Engineer at **Hammad Engineering Company**, focusing on transformer design and engineering development. A quick learner with strong technical knowledge, problem-solving skills, and a keen interest in advancing within the power and energy sector.

EXPERIENCE

- | | | |
|---|-------|------------------------------|
| • Design Engineer at Hammad engineering. | ---- | NOV 2025-present |
| • Internship at LESCO operations department | ----- | July 2025-SEP 2025 |
| • Internship at NGC gird Okara | ----- | MAY 2025-JUNE2025 |
| • Research Intern, physics department PU | ----- | MAY 2024 - JUNE 2024 |
| • Intern, university grid PU | ----- | JUNE 2024 - JULY 2024 |
| • Intern, NTDC 7 Weeks Internship | ----- | JULY 2024 - AUG 2024 |

ACHIEVEMENT

- **First** position in Simulink design contest in **SEECON 2024**.
- **Third** position in control of power converters at O.D.S.P.C 2024.
- Worked as volunteer in a session over climate change and artificial intelligence.
- Published a research paper at IEEE entitled as analog Teleoperated machines

Education

- | | | |
|--|-----------|----------------------------------|
| • 2021-2025 B.sc Electrical Engineering | 3.49 CGPA | University of the Punjab, Lahore |
| • 2021 F.Sc (Pre-Engineering) | 90.45% | Punjab group of Colleges Okara |
| • 2019 Matriculation | 91% | Govt. HS School 9/1.A.L Okara |

Volunteer Project

- Voltage sensor using a PCB.
- Voltage level detector using diodes.
- Multi-level inverter using high frequency MOSFETS.
- Water flow sensor using micro controller.
- Analog teleoperated robotic arm using PID controller.
- FYDP on the improvement of load curve using DLC in which we made our own Simulink symmetry and a hardware prototype as well .

Skills and Tools

- | | | |
|--------------------|-----------|--------------------|
| Good Knowledge of: | • PROTIUS | • Microsoft Office |
| | • C++ | • AutoCAD |
| | • MATLAB | • Multisim |
| | • PWS | • E.TAP |
| | • P.SIM | • SIMULINK |

PUBLICATION

- published research paper at IEEE on the topic of analog Teleoperated machines.
